### **Medical Spa Services & Clinic Licensure Regulation (105 CMR 140.000)**

A medical spa that provides medical services or in which medical procedures are rendered must be licensed by the Massachusetts Department of Public Health, (DPH) and meet the requirements of 105 CMR 140.000. The Randolph Public Health Department does not issue a permit or license for a medical spa or equivalent to operate. A medical spa or equivalent establishment that is not currently licensed by the Massachusetts Department of Public Health, (DPH), as a clinic, or a planned medical spa, must complete an application to become a licensed clinic. A medical spa that is part of a licensed clinic that is currently in compliance with 105 CMR 140.00 does not need to apply for additional licensure.

If the medical spa is wholly owned and controlled by one or more of the practitioners who provide its medical services, it does not have to be licensed as a clinic and is therefore exempt from the requirements of 105 CMR 140.000. However, the practice itself is still subject to oversight by the licensing board appropriate to the practitioner providing the service.

#### **Regulation by Other Agencies**
